

## **POSTPONEMENT OF THE FEFANA/FAMI-QS TRAINING SESSION IN CHINA**

Due to the progression of events related to the recent flu outbreak in Mexico, it has been decided to postpone the FEFANA/FAMI-QS training of operators and certification bodies which was supposed to take place in Beijing on May 12<sup>th</sup> and 13<sup>th</sup>.

Avoiding other feed industry events and major holidays as well as coordinating with hotel and convention center availability, we are trying to find a new date to be set for October, 2009. The schedule will be similar to the one communicated for the May dates. HSL Certification Service (<http://www.hslcs.org.cn/>), co-organizer of the event, will promptly contact registered participants concerning further progression.

Thank you for your continued support and we look forward to seeing you in Beijing in October 2009!
