

FAMI-QS INFO SESSION ON THE VERSION 6

In 2016, FAMI-QS carried out the challenging task of fully revising its system, in order to stay abreast of the new developments in our fast evolving industry. With an experienced and active team of experts, as well as valuable partners in Brazil, China, Europe and U.S., and thanks to their efforts, we were able to make this revision of the Code, having a robust final document that provides requirements for implementing measures necessary to ensure feed safety and quality of specialty feed ingredients.

To enhance better understanding of the recently published FAMI-QS Certification System, FAMI-QS will organize a one-day info session on the 18th January 2018, in São Paulo, Brazil.

During the info session, the transition requirements and main changes will be highlighted.

In order to ensure a fruitful meeting, participants are kindly invited to read the Code version 6 and the Rules for Operators version 8 before the meeting. These documents are available in our website. We will be receiving your questions and doubts until the 30th of December 2017. These are important so that we can better prepare our presentations as well as clarify all the inquiries.

PRACTICAL INFORMATION

[Venue] HILTON SÃO PAULO MORUMBI, Av. Das Nações Unidas 12901 – Torre Leste, São Paulo SP 04578 000

[Time] 10:00 – 15:00
